ABOUT SHIVESH INTERNATIONAL

ESTABLISHED 2000 NATURAL PRODUCT EXPERTISE

Established in 2000, Shivesh International has been crafted with a passion for nature and a promise of purity. From the finest farms of India to discerning customers across the world, we deliver natural products that inspire wellness and build lasting trust.

ROOTED IN INDIA. BUILT FOR GLOBAL BUYERS.

MANUFACTURING & QUALITY

Controlled facilities, documented processes and product specifications support quality. Certification scope and export documents are reviewed for buyer requirements.

GLOBAL EXPORT CAPABILITY

Bulk orders can start from 100 kg per item, subject to commercial and product confirmation. Private-label MOQ varies with product, pack format and customization, subject to commercial feasibility. Full terms: page 9.

INTERNATIONAL BUYERS VISIT OUR MANUFACTURING FACILITY

WE WELCOME BUYERS TO SEE HOW WE WORK

Factory visits create an opportunity for international buyers to understand our infrastructure, processing approach, product handling and packaging capabilities at close range. During each visit, our team explains the journey from selected raw materials and controlled processing to quality review, buyer-specific packaging and export coordination.

Warm welcome at our manufacturing facility.

Product discussion and sample review with our team.

Guided tour of our processing and packaging areas.

Buyers observing production and quality-focused operations.

“Trust grows when buyers can see the process, meet the team and discuss their requirements directly.”

A CLOSER LOOK AT EVERY STAGE

01 FACILITY & PROCESS TOUR

A guided overview of material handling, processing, packaging and organized dispatch areas.

02 QUALITY & PRODUCT DISCUSSION

Direct conversations covering product specifications, consistency expectations and buyer-market requirements.

03 OEM & PRIVATE-LABEL REVIEW

Evaluation of pack formats, artwork, label coordination, order quantities and customized presentation options.

04 EXPORT PARTNERSHIP PLANNING

Commercial discussions focused on documentation, delivery planning, communication and long-term supply cooperation.

VISIT • VERIFY • COLLABORATE • GROW TOGETHER

QUALITY ASSURANCE • DOCUMENTATION • MARKET READINESS

CERTIFICATIONS & QUALITY STANDARDS

Our quality framework is supported by manufacturing controls, documented processes and applicable registrations or certifications. Product-specific and market-specific documentation is reviewed according to the buyer's requirements and the destination country.

1. CE Certificate

Certificate applicability reviewed for the relevant scope.

2. FSSAI

Food-business registration and applicable licensing scope.

3. GMP

Good Manufacturing Practices; applicable manufacturing scope.

4. HACCP

Hazard analysis and process control

5. HALAL

Applicable halal product certification

6. ISO 22000:2018

Food safety management system; applicable scope.

7. ISO 9001:2015

Quality management system; applicable scope.

8. KOSHER

Applicable kosher product certification

9. MSME

Indian enterprise registration

10. FSSC 22000

Food safety certification scheme; applicable scope.

DOCUMENTATION SUPPORT FOR GLOBAL BUYERS

Available documentation may include product specifications, certificates of analysis, safety data, batch information, packing details and export-related records, subject to the selected product and commercial requirement.

Certification and registration applicability may vary by product, manufacturing scope and destination market. Supporting documents are shared for verification upon request.

ECO-FRIENDLY PACKAGING SOLUTIONS

PACKAGING WITH PURPOSE

We support buyers with packaging formats selected according to product protection, presentation, order quantity and destination-market requirements. Available options can include paper-based, reusable, recyclable or lower-plastic formats, subject to material suitability and commercial feasibility.

PRODUCT PROTECTION

6. CORRUGATED CARTONS

Bulk and export outer packing

7. LABELS & PAPER TAPES

Artwork and sealing coordination

8. PAPER VOID FILLERS

Protective shipment cushioning

CUSTOM PACKAGING & PRIVATE LABEL

Private-label MOQ varies with product, formulation, packaging and design. Customization, order and commercial-feasibility conditions: page 9. Final packaging depends on the selected product, quantity, shelf-life needs, transport conditions and material availability.

Environmental characteristics vary by material and supplier specification. Packaging claims and disposal guidance should be verified for the destination market.

BOTANICAL HAIR-COLOUR INGREDIENTS FROM INDIA

NATURAL HENNA POWDER & NATURAL INDIGO POWDER

Two complementary botanical powders used by professional hair-care brands, importers, distributors, salons and private-label buyers seeking dependable sourcing from India.

NATURAL HENNA POWDER

Lawsonia inermis

Finely milled henna leaf powder traditionally used for natural copper, auburn and warm red hair-colour applications. Selected leaves are cleaned, dried and processed to support consistent colour release and smooth application.

-  **ORIGIN** — India
-  **FORM** — Fine botanical powder
-  **APPLICATION** — Natural hair colour and conditioning blends
-  **SUPPLY** — Bulk, wholesale and private label

NATURAL INDIGO POWDER

Indigofera tinctoria

Finely milled indigo leaf powder used alone or with henna in botanical hair-colour systems. It supports brown, dark-brown and black colour directions depending on formulation, sequence and application method.

-  **ORIGIN** — India
-  **FORM** — Fine botanical powder
-  **APPLICATION** — Botanical brown and dark colour blends
-  **SUPPLY** — Bulk, wholesale and private label

Bulk orders can start from 100 kg per item, subject to commercial and product confirmation.
